

CLEANING KIT

Cleaning Kit

A must for every installer and network engineer! Our Fibre Optic Survival Kit allows you to clean patchcords and terminated fibres, clean both 1.25mm and 2.5mm in-line adaptors and ensure good optical continuity is maintained.

Supplied in a rugged storage and carrying case (suitable for any truck, van or vehicle!)

Individual items may be purchased separately; kits may also be tailored to specific needs.

Order Code: TK
