

## FIBRE OPTIC CONNECTOR KIT

Tech Optics offers Fibre Optic Tool Kits for terminating optical cables. The basic kit provides all the tools necessary for preparing a cable end, the consumables for fitting a connector and polishing the completed termination by hand. We can add in additional dedicated tooling for particular brands of connector where a specific crimp tool or polishing fixture is required. Our tool kits are suitable for both field and work bench use and are supplied in heavy duty "Pelican" cases to withstand the tough work environments.

### Contents in Basic Kit

Description	Item Code	Qty
5 Hex crimp tool	927-1163	1
T-Cutter stripping tool	45-123	1
T-Cutter stripping tool	45-216	1
Ideal jacket stripping tool	45-162	1
Black OHP pen, medium		1
Lint free alcohol wipes	TX806	8
2 No-Nik buffer stripping tools	NN254 and NN305	1
Miller stripping tool	FO-103S	1
Kevlar scissors	C-124	1
400x hand held microscope	FM-C400	1
LC adaptor for microscope	FMA-LC	1
24 Port multicure connector heater	9561-TO	1
Heat cure epoxy 4g sachets x 5	RT153FC-TP5-004	2
Epoxy dispenser, syringe and needle	FT-3ML	10
Perspex polishing board	PB1	1
Black work mat	FS-100	1
Polishing films: 12 micron	3M-AO-12-L	50
Polishing films: 3 micron	3M-AO-3-L	50
Polishing films: 1 micron	3M-AO-1-L	50
Polishing films: 0.3 micron	3M-AO-03-L	50
Universal 2.5mm polishing puck	EFA6004ASS	1
LC polishing puck	EFA6006ASS	1
Sapphire Fibre scribe	58825-600	1
Rubber pad		1
6" steel rule		1
Heat gun and nozzle		1
Solvent Dispenser	SD12	1
Kit case		1
