

FUJIKURA CT-10 CLEAVING TOOL

The CT-10 is a high precision cleaver for single fibre applications, providing typical end face angle of 0.5 degrees. The CT-10 features a flat diamond blade, rather than the circular style blade that is used by the CT-30 and earlier cleaver models. The blade life is up to 64,000 cleaves and the blade is easily replaced by the user.

Key Features and Specification:

Dedicated for single fiber cleaving

User replaceable flat diamond blade

Simple & single-step operation

Blade life up to 64,000 cleaves

Compact and light weight

Detachable fiber scrap collector
FC-03 available as option

Order Code: CT-10
