

FCPC CONNECTORS

Amphenol

A one-piece singlemode FC connector with a pre-radiused zirconia ceramic ferrule for Ultra PC terminations.

The connector is compatible with NTT-FC and JIS FC connectors and is compliant with Bellcore 326 requirements. Optical insertion loss is typically 0.2dB with less than 0.2dB change after 500 mating cycles.

The Amp FCPC connector includes a strain relief boot for terminating 3mm diameter cable. The 126µm capillary hole size in the ceramic ferrule is recommended for most 125µm singlemode fibres.

FCPC Connector

Order Code	Description
5504649-8	FCPC connector 126µm ferrule, crimp ring and blue boot
503911-1	Crimp Tool
504862-1	Polishing Tool for hand polishing

FCPC Adaptors

Order Code	Description
504407-3	D-Hole mount, ceramic sleeve
504407-1	D-Hole mount, metal sleeve

Note: Adaptors fit ST style cut-outs on patch panels
